In its simplest form Utilitarianism is a theory that says that you should decide what you do in order to provide the most happiness and the least pain in a situation.. It is therefore Hedonistic - It is centred around pleasure.. As you look at all the different possible outcomes of a situation to see where pleasure and pain will be balanced the best, it is consequentialist or teleological.

Utilitarianism - Revision World

A theory involves concepts or constructs that are related in such a way as to explain why certain phenomena occur. An organizational theory involves a set of concepts/constructs that are related to each other and explain how individuals behave in social units we call organizations.Organizational theory also concerns understanding how groups of individuals behave, which may differ from the ...

Organizational theory - Wikipedia

Among the advantages of statute law is that legislation is accessible and therefore broadly "knowable;" that it is dynamic and flexible, and so easily amended; and that it promotes legal certainty, with a formal procedure required for its repeal. Among its disadvantages is that, under a common-law system, legal certainty is frequently an ...
