Biological Classification Pogil Answer Key - Lesson Worksheets

Conjugation with sulfhydryl groups appears to be an important detoxification process for methyl acrylate in the guinea-pig. The thioethers were identified as N-acetyl-S-(2- carboxyethyl)-L-cysteine and the corresponding monomethyl ester, with a ratio between the two metabolites of 20:1. In male rats exposed to methyl acrylate by inhalation, depletion of nonprotein sulfhydryl compounds was most ...
