OK, this should help you out. You can use a CA-4 or CA-5 with a Hickok 533/A, 534, or 600/A. The instruction manual for either of them will give you the switch settings to use on the tube tester so you can plug the CA-4 or CA-5 into it and have it work. That gives you the basic connections for the adapter.

Hickok 533A Tube Tester. The Hickok model 533A tube tester is one of their most popular models. As with most all of Hickok tube testers, this unit uses the mutual transconductance method for testing of tube quality. There is also an earlier model 533 which is similar but has different grid signal levels and different switch settings.
