The Nature Aquarium is one of the two major styles dominating the world of aquascaping. The basic Nature style aesthetic concepts have been introduced by Japanese aquarist Takashi Amano back in the 1990's and have become widely popular over the years, influencing the entire future of aquascape design. The style itself has at its origins the naturally growing scenery inspired by the Japanese gardening concept Wabi Sabi.

Since its inception, Aqua Design Amano (ADA) has been developing products for achieving beautiful Nature Aquarium layouts under the concept of "Learn from Nature". With the aim of creating harmony between nature and human life, ADA sends out various information from lush greenery environment.

**Home | ADA Nature Aquariums**  
ADA's vision is to create an environment where the roots of aquatic plants develop a symbiotic relationship with the naturally occurring bacteria and microorganisms. Organic compounds in the substrate layer become broken down and create inorganic compounds, which eventually become food for aquatic plants via absorption from the roots.
