Oracle Business Process Management Suite Overview

Oracle BPM Studio is a component of the Oracle BPM Suite that enables process developers to create process-based applications. It also enables process analysts and developers to model business processes. Oracle BPM Studio is part of the Oracle JDeveloper IDE. and shares many of the JDeveloper user interface elements used by the Oracle SOA Suite.

Introduction to Oracle BPM Studio

Oracle BPM Suite consists of Business Process Composer for modeling processes and BPM Studio for implementing the processes. Oracle Business Process Composer is a web-based, collaborative application that enables business analysts to model business processes and perform the basic implementation of some of the artifacts used in the business process.
