A disturbingly large portion of papers—about 2%—contain "problematic" scientific images that experts readily identified as deliberately manipulated, according to a study of 20,000 papers published in mBio in 2016 by Elisabeth Bik of Stanford University in Palo Alto, California, and colleagues. What's more, our analysis showed that most of ...

“The concept at the root of the works featured in The End is the near-death experience,” Katsipis’s statement about the exhibition explains, pointing out that he and the Grim Reaper have crossed paths a number of times throughout his life. The photographer adds that he’s also pulled others back from the proverbial ledge, saving them from an untimely demise.
