Taxonomy ppt - SlideShare

Taxonomy is an international, scientific, peer-reviewed, open access journal published quarterly online by MDPI. The publication covers the conception, naming, and classification of groups of organisms, including but not limited to animals, plants, viruses, and microorganisms.

Taxonomy | An Open Access Journal from MDPI

At the species level, estimates from mitochondrial DNA genome analyses suggest that *Hylobates pileatus* diverged from *H. lar* and *H. agilis* around 3.9 Mya, and *H. lar* and *H. agilis* separated around 3.3 Mya. Whole genome analysis suggests divergence of *H. pileatus* from *H. moloch* 1.5–3.0 Mya. The extinct *Bunopithecus sericus* is a gibbon or gibbon-like ape, which until recently, was thought to be ...
