## **The Nature of Art and Creativity Flashcards | Quizlet**

Science and art are often viewed as opposites. One seems to be driven by data while the other by expression and creation. But, in reality, they're more alike than we think. They share a common thread through inquiry and questioning. At their core, artists and scientists are inventing, exploring, and discovering.

The university was founded as the Jamaica Institute of Technology in 1958. The following year it was incorporated as the College of Arts, Science and Technology (CAST), and was formally recognised by an Act of Parliament in 1964. It was granted degree awarding powers in 1986 and a governing council and academic board were established.

## **University of Technology, Jamaica - Wikipedia**

By Rocky Mumo . Art , Technology and Science. The relationship between these practices expresses itself in two predominant ways. One is on how technology and science are pushing the limits of artistic practice, challenging artist to produce sizable, audacious, powerful art and the capabilities of science and technology that threaten the existence of the artist altogether.
