Rice, the foundation of the Philippine economy, is the country's single most important crop, and the staple food for much of the population. It is especially important to the country's poor majority, as both consumers and producers. In 1973, the martial law regime merged all coconut-related, government operations within a single agency, the Philippine Coconut Authority (PCA).

Definition. In economics, a market is a coordinating mechanism that uses prices to convey information among economic entities (such as firms, households and individuals) to regulate production and distribution. In his seminal 1937 article "The Nature of the Firm", Ronald Coase wrote: "An economist thinks of the economic system as being coordinated by the price mechanism....in economic theory we ...

Law and economics or economic analysis of law is the application of economic theory (specifically microeconomic theory) to the analysis of law that began mostly with scholars from the Chicago school of economics. Economic concepts are used to explain the effects of laws, to assess which legal rules are economically efficient, and to predict which legal rules will be promulgated.

The Russellville Arkansas River Valley Region is growing faster than the national average and also has a lower median age. We see huge growth in our economy, industry and job opportunities as well as an expansion in local activities and small businesses. Despite the growing trend, Russellville still maintains affordable housing and a diverse small community feel.
